# Special Session

**Hot topic lectures on nurse cystoscopy and urodynamics for nurses**

**Location:** Room 4  
**Chair:** L. Van De Bilt-Sonderegger, Eindhoven (NL)

**Aims and objectives of this presentation**
- A presentation about the highlights of the BAUN – BAUS cystoscopy guidelines 2015
- Preparing implementing and executing a urodynamic examination is a challenge. Specific training and education are required to achieve an optimal clinical practice. One of the topics in this session is to discuss the knowledge and skills that you require for good urodynamic practice
- Video urodynamics is not routinely (or not) performed in every hospital. Indications for this test will be discussed and some tests will be shown to familiarize you with this type of urodynamics

**Panel:**
- M. Bagnall, North Shields (GB)  
- J. Groen, Rotterdam (NL)  
- P.F.W.M. Rosier, Nijmegen (NL)  
- L. Van De Bilt-Sonderegger, Eindhoven (NL)
