The pivotal role of the nurse in managing mCRPC: Collaborating to improve patient care

**Location:** Room 5

**Chair:** L. Drudge-Coates, London (GB)

**Aims and objectives of this presentation**
- Describe the incidence and impact of metastatic castration-resistant prostate cancer (mCRPC) and the opportunities for specialist nurses to improve patient care and outcomes
- Follow the patient journey through mCRPC and identify key opportunities for nurses to enhance collaborative multidisciplinary care
- Describe strategies for nurses to provide patient and caregiver education and promote adherence to current treatments including a novel radiopharmaceutical

**Key learning objectives**
At the end of this session delegates should be able to:
1. Describe the incidence and impact of mCRPC.
2. Understand ongoing unmet patient needs in mCRPC, including the effects of bone metastases and skeletal-related events.
3. Discuss the evolving role of the specialist nurse and recognise opportunities to improve patient care and outcomes.

**08:00 - 08:10**

**The impact of mCRPC and the evolving role of the specialist nurse**
L. Drudge-Coates, London (GB)

**08:10 - 08:35**

**The patient journey in mCRPC: Key touch points for nurses**
B. Tombal, Brussels (BE)
C. Remacle, Brussels (BE)

**08:35 - 08:50**

**Strategies for effective patient education and adherence**
M. Nematollahi, Ontario (CA)

**08:50 - 09:00**

**Questions from the floor**
